
YOGESH SINGH

WEB DEVELOPER

EXPERIENCE

As a fresher software engineer, I bring a diverse skill set in both front-end and back-end development. My front-end expertise includes **HTML, CSS, and JavaScript**, enabling me to build interactive and responsive user interfaces. On the back-end, I have experience in **SQL** for database management. Additionally, I'm proficient in **WordPress** development, creating and managing websites with ease.

In terms of **SEO** (Search Engine Optimization) and **SEM** (Search Engine Marketing), I understand how to optimize content and use tools for better online visibility and performance. I also possess strong **problem-solving skills**, which are crucial for debugging and optimizing code. My **computer literacy** and experience with **digital marketing tools** enhance my ability to contribute to technical and marketing-focused projects.
